DNA Tests

**Discover
Your Code
of Life**

How Does the MaximDNA Tests Benefit Your Health?

To enhance wellness and well-being

The test identifies genetic markers linked to various health conditions. This information empowers you to make informed decisions about your health, guiding lifestyle changes and facilitating early detection and prevention measures.

Preparing for the future

The test provides valuable insights into your risk for specific conditions, such as heart disease, cancer, or genetic disorders. Additionally, it helps you understand how your body may respond to certain medications, enabling your healthcare provider to tailor your treatment plan more effectively.

Discover your genetic blueprint

The test reveals genetic traits passed down from your ancestors, helping you identify risks for hereditary cancers, blood disorders, immune system issues, and more. With personalised insights, you can make informed decisions for a healthier future.

Maxim
CARE

Designed for individuals seeking practical insights to improve their diet, fitness, lifestyle, and overall well-being.

Maxim
PRO

Designed for individuals who seek practical information to prevent common diseases and take charge of their health.

Maxim
PRO+

Designed for individuals who aim to safeguard their families and enhance their quality of life.

HOW DOES IT WORK?

We meticulously analyse data recommended by top genetics societies, focusing on actionable diseases that benefit from early detection, enabling effective prevention and management strategies.

Your Sample

Upon receiving your sample, we isolate your DNA for analysis.

Analysing Your Data

Your DNA is undergoing analysis, protected by our advanced security system. Similar to a bank, only you have access to your data.

Genome Interpretation

We utilise the most comprehensive Clinical Genomics Knowledgebase to confidently identify and classify variants, ensuring accurate results.

Test Results Validated by Our Geneticist

Each interpretation undergoes medical oversight by our geneticist and scientist to ensure the report includes the latest clinically actionable information.

Your Personalised Genetic Test Report

We provide information recommended by top genetics societies, focusing on actionable diseases that benefit from early detection and effective management strategies.

Our technologies have won multiple international awards.
